

Dong Yang

Performance Marketing Specialist | Paid Media & Marketing

Performance marketer with 6+ years of international paid media experience across Meta, Google Ads, and TikTok. My Applied Data Science training at the University of Canterbury has strengthened my data analysis skills and given me a more analytical approach to optimisation, customer insight, and growth decisions. I'm also interested in using AI in practical ways to improve marketing workflows and campaign performance.

Work Experience

Electronic Soul | Senior Marketing Planner2021.03 - 2023.09

- Managed global paid media campaigns for game products across Meta, Google Ads, and TikTok Ads.
- Developed audience, bidding, and campaign strategies based on product lifecycle, early performance signals, and campaign data.
- Partnered with creative teams to test and iterate ad concepts, improving campaign relevance and conversion efficiency.
- Monitored channel performance and shared regular reporting and optimisation insights to support both budget allocation and product improvement.

DOTC United Group | Overseas Advertising Team Lead2020.02 - 2021.02

- Led a paid media team of 5, assigning projects and coordinating campaign execution.
- Worked directly with clients to confirm campaign needs and KPIs, provide regular performance updates, and recommend campaign adjustments.
- Coordinated with business, operations, and creative teams to align project priorities and keep communication flowing across teams.
- Worked with media partners to stay up to date on platform policies and shared optimisation learnings with the team.

Baidu | Advertising Data Optimiser2018.02 - 2019.10

- Optimised search advertising accounts, focusing on keyword strategy and performance improvement for SME clients.
- Analysed search behaviour and campaign data to improve traffic quality and conversion efficiency within budget constraints.
- Helped brands identify more suitable ad formats and messaging to better match their products and brand style.
